Let's Pretend This Never Happened Jenny Lawson, 2012-04-17 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

Love and Consequences Margaret B. Jones, 2008 A former child gang member who followed her foster brothers into the Bloods at the age of eight reveals her participation in drug activities and violence before finding the strength within herself to graduate college and break free.

The Monsters Know What They're Doing Keith Ammann, 2019-10-29 From the creator of the popular blog *The Monsters Know What They're Doing* comes a compilation of villainous battle plans for *Dungeon Masters*. In the course of a *Dungeons & Dragons* game, a *Dungeon Master* has to make one decision after another in response to player behavior—and the better the players, the more unpredictable their behavior! It's easy for even an experienced DM to get bogged down in on-the-spot decision-making or to let combat devolve into a boring slugfest, with enemies running directly at the player characters and biting, bashing, and slashing away. In *The Monsters Know What They're Doing*, Keith Ammann lightens the DM's burden by helping you understand your monsters' abilities and develop battle plans before your fifth edition D&D game session begins. Just as soldiers don't whip out their field manuals for the first time when they're already under fire, a DM shouldn't wait until the PCs have just encountered a dozen bullywugs to figure out how they advance, fight, and retreat. Easy to read and apply, *The Monsters Know What They're Doing* is essential reading for every DM.

Tome of Battle Richard Baker, Frank Brunner, Matthew Sernett, 2006 The nine martial disciplines presented in this supplement allow a character with the proper knowledge and focus to perform special combat maneuvers and nearly magical

effects. Information is also included on new magic items and spells and new monsters and organizations.

Economic Fables Ariel Rubinstein, 2012 I had the good fortune to grow up in a wonderful area of Jerusalem, surrounded by a diverse range of people: Rabbi Meizel, the communist Sala Marcel, my widowed Aunt Hannah, and the intellectual Yaacovson. As far as I'm concerned, the opinion of such people is just as authoritative for making social and economic decisions as the opinion of an expert using a model. Part memoir, part crash-course in economic theory, this deeply engaging book by one of the world's foremost economists looks at economic ideas through a personal lens. Together with an introduction to some of the central concepts in modern economic thought, Ariel Rubinstein offers some powerful and entertaining reflections on his childhood, family and career. In doing so, he challenges many of the central tenets of game theory, and sheds light on the role economics can play in society at large. *Economic Fables* is as thought-provoking for seasoned economists as it is enlightening for newcomers to the field.

Nineteen Eighty-Four George Orwell, 2021-01-09 *Nineteen Eighty-Four: A Novel*, often published as 1984, is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, *Nineteen Eighty-Four* centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

23 Things They Don't Tell You About Capitalism Ha-Joon Chang, 2010-09-02 Ha-Joon Chang dispels the myths and prejudices that have come to dominate our understanding of how the world works. He succeeds in both setting the historical record straight ('the washing machine has changed the world more than the internet'; 'the US does not have the highest living standard in the world'; 'people in poor countries are more entrepreneurial than people in rich countries') and persuading us of the consequences of his analysis ('making rich people richer doesn't make the rest of us richer'; 'companies should not be run in the interest of their owners'; 'financial markets need to become less, not more, efficient'). As Chang shows above all else, all economic choices are political ones, and it is time we started to be honest about them.

Good Economics for Hard Times Abhijit V. Banerjee, Esther Duflo, 2019-11-12 FROM THE WINNERS OF THE 2019 NOBEL PRIZE IN ECONOMICS 'Wonderfully refreshing . . . A must read' Thomas Piketty In this revolutionary book, prize-winning economists Abhijit V. Banerjee and Esther Duflo show how economics, when done right, can help us solve the thorniest social and political problems of our day. From immigration to inequality, slowing growth to accelerating climate change, we have the resources to address the challenges we face but we are so often blinded by ideology. Original, provocative and urgent, Good Economics for Hard Times offers the new thinking that we need. It builds on cutting-edge research in economics - and years of exploring the most effective solutions to alleviate extreme poverty - to make a persuasive case for an intelligent interventionism and a society built on compassion and respect. A much-needed antidote to polarized discourse, this book shines a light to help us appreciate and understand our precariously balanced world.

Stand Out of Our Light James Williams, 2018-05-31 Argues that human freedom is threatened by systems of intelligent persuasion developed by tech giants who compete for our time and attention. This title is also available as Open Access.

Out Of Control Kevin Kelly, 2009-04-30 Out of Control chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

Banking for a Better World Nanno Kleiterp, Marijn Wiersma, 2017 This important and accessible must-read will challenge you to find overlaps between your own life and global issues, and to start bridging the gap between your personal needs and those of our planet.

The Restoration of Borobudur Unesco, 2005 This publication traces the history and restoration of Chandi Borobudur, a Buddhist temple built over 1,000 years ago on the island of Java, Indonesia which was successfully restored during 1973-1983 and listed as a World Heritage Site in 1991. It covers the various aspects of the process, including the long and painstaking task of logging the position of the stones, the studies that revealed the underlying sources of decay, and the important archaeological finds that provided clues to the temple's spiritual past; and includes many of the original drawings and photographs taken from the restoration project archives.

A Nation on the Line Jan M. Padios, 2018-03-23 In 2011 the Philippines surpassed India to become what the New York Times referred to as the world's capital of call centers. By the end of 2015 the Philippine call center industry employed over one million people and generated twenty-two billion dollars in revenue. In A Nation on the Line Jan M. Padios examines this massive industry in the context of globalization, race, gender, transnationalism, and postcolonialism, outlining how it has become a significant site of efforts to redefine Filipino identity and culture, the Philippine nation-state, and the value of Filipino labor. She also chronicles the many contradictory effects of call center work on Filipino identity, family, consumer

culture, and sexual politics. As Padios demonstrates, the critical question of call centers does not merely expose the logic of transnational capitalism and the legacies of colonialism; it also problematizes the process of nation-building and peoplehood in the early twenty-first century.

When the Moon Waxes Red Trinh T. Minh-ha, 2014-02-04 In this new collection of her provocative essays on Third World art and culture, Trinh Minh-ha offers new challenges to Western regimes of knowledge. Bringing to her subjects an acute sense of the many meanings of the marginal, she examines topics such as Asian and African texts, the theories of Barthes, questions of spectatorship, the enigmas of art, and the perils of anthropology. *When the Moon Waxes Red* is an extended argument against reductive analyses, even those that appear politically adroit. The multiply-hyphenated peoples of color are not simply placed in a duality between two cultural heritages; throughout, Trinh describes the predicament of having to live a difference that has no name and too many names already. She argues for multicultural revision of knowledge so that a new politics can transform reality rather than merely ideologize it. By rewriting the always emerging, already distorted place of struggle, such work seeks to beat the master at his own game.

Political Junkies Claire Bond Potter, 2020-07-07 A wide-ranging history of seventy years of change in political media, and how it transformed -- and fractured -- American politics With fake news on Facebook, trolls on Twitter, and viral outrage everywhere, it's easy to believe that the internet changed politics entirely. In *Political Junkies*, historian Claire Bond Potter shows otherwise, revealing the roots of today's dysfunction by situating online politics in a longer history of alternative political media. From independent newsletters in the 1950s to talk radio in the 1970s to cable television in the 1980s, pioneers on the left and right developed alternative media outlets that made politics more popular, and ultimately, more partisan. When campaign operatives took up e-mail, blogging, and social media, they only supercharged these trends. At a time when political engagement has never been greater and trust has never been lower, *Political Junkies* is essential reading for understanding how we got here.
